FaceTime - iPhone - iOS 17

What is FaceTime?

An app for making video & voice calls over the internet.

Prerequisites

- *Signed into your Apple ID account.*
- *Connected to the internet, Wi-Fi or cellular.*
- *FaceTime setup*

Operation

- *Defaults to using Wi-Fi, no additional cost.*
- *Cellular data (If allowed in Settings > Cellular > FaceTime).*
- *On cellular, counts against data plan.*
- *Does not count against minutes.*

FaceTime Setup

Open Settings

Scroll to FaceTime and tap

*Ensure FaceTime is turned on. Look at other settings as well.*
