

iPhone CAMERA CLASS

*Mac Club instructor **Jules Anderson** is hosting an exciting five-week class on iPhone photography. In this class, you'll gain a comprehensive understanding of the camera, photo composition, editing, and organization.*

Classes are held in the Mac Learning Center classroom from:

1:00 to 2:30 PM

Starts Wed., May 7

Two dollar donation each class is appreciated.

Registration not required (Details on back)

iPhone Photography Classes

Wk 1 Camera Part 1 - Wed May 7

Learn why the iPhone is such a *powerful* tool now rivaling DSLRs by using Computation Photography. Understand quick camera access, features including hidden options. Then we'll learn how to take & view a photo and why Auto Mode works so well.

Wk 2 Camera Part 2 - Wed May 14

We'll focus on how to get *clear* photos with Focus, explore different photo modes such as Portrait Mode, Macro, Night Mode, Live Photos, Selfies, and Panorama Mode. Use iPhone's built in features to maximize interest in your photo work.

Wk 3 Photo Composition - Wed May 21

So, how do you create a beautiful and engaging photo? The rules of composition will give you the results you long for. Learn how to craft pictures you can be *proud* of and that mimic the best photos you see.

Wk 4 Photos: Editing iPhone - Wed May 28

Photos, while good when taken, benefit immensely from Apple Editing. Your iPhone has *powerful* tools including Apple's Magic Wand that will really take your photos from just okay to WOW! Simple fixes and knowing you can always revert to your original photo will let you edit with confidence.

Wk 5 Photos: Organization - Wed June 4

We'll explore the Photos App's powerful organizational tools and their creative collections of your Memories and Trips. We'll also show you how to *organize* your photos by creating separate albums; never "loose" a photo again.
